The tangible aspects that we consider are: the language, traditional dishes and spices, traditional music and dances, traditional fairy tales and lullaby. All the documents collected about these 4 topics will be used to create the cultural itineraries during the festival which will be, then, collected in a "Travel Diary"</p> <ol style="list-style-type: none"> 3. Discussion about the collected data in order to make a deep reflection on their own culture 4. Making clear all the logistic and learning aspects before the departure (i.e. reimbursement, travel, accommodation, meals, learning outcome etc...)*. <p>*In the participants' info pack we will provide all this information.</p>
<p>POST-DEPARTURE MEETINGS</p>	<p>After the exchange each country group supported by the team leader has to organize between January and February 2016 at least 4 post departure meetings. During these meetings, the participants have to discuss and report what they have learned and which opinion they have had about their exchange experience. Participants' reports will be shared among the project partners and will be published in internet (social networks, organizations' websites, newsletter etc...). These meetings will also be an opportunity to design future youth mobility projects on the same topic. To know how the post-departure meetings have to be structured, we will send to each organization an info-pack which will be created during the exchange with the team leaders' support.</p>

This may consist in a meeting, conference, seminar or workshop on the project topic. The organizations can freely chose the type, the agenda and the activities of this event. Anyway, it is important for us that: people from the local community, in particular youth, and local institutions (if it is possible) are invited ; the output ("Travel Diary"), the learning outcomes and the participant's mobility experiences are presented to the audience; an evaluation questionnaire on the event will be filled in by the audience as well as sign-in sheet.</p>
